

2021 Recommended Trinity River Restoration Flow Schedule

A “Critically Dry” Water Year is expected based on California Department of Water Resources estimates of the full natural flow volume at Lewiston, which determines the forecast water year type.

Note: Discharges in the hydrograph are daily average flow releases from Lewiston Dam.

Questions or concerns regarding restoration flows? Please email the TRRP office: info@trrp.net or call (530) 623-1800. Visit www.trrp.net to learn more and to download the full daily schedule.

Note: Please see the table on the reverse side for the detailed release schedule.
