Participating in the Live Event

- Attendee microphones will be muted automatically. The host will enable participant mics as needed during the Q&A time.
- Attendee cameras are on by default unless participants turn them off prior to joining the meeting, but for a smoother streaming experience, we ask that attendees keep their cameras off.
- It is expected that all attendees will conduct themselves in a respectful and orderly manner. We will hold tightly to the agenda and all attendees will have the chance to submit their questions for the Q&A period.
- Questions will be submitted through the Chat function (see next page for further instructions) and will be answered in the order received. Call-in participants without access to Chat will be offered a chance to verbally pose questions.
- If the same or very similar questions are asked by multiple people, TRRP will consolidate into a single question and address appropriately.
