

WY 2014 Flow Release Schedule
Lewiston Dam Releases to the Trinity River, CA
Recommended by the Trinity Management Council
on April 8, 2014 for a "Critically Dry" Water Year

Go to www.trrp.net
or call (530) 275-1554
for current river flows

**Please take appropriate safety
precautions whenever using
the river.**

Releases from Lewiston Dam will increase on April 23, 2014, and reach the peak of 1,500 cfs April 24. The flow will remain at 1,500 cfs until May 29. On May 30 the flow will begin gradually decreasing to a summer base-flow of 450 cfs on June 26. The public should take appropriate safety precautions whenever using the river, rivers are naturally hazardous at any flow. We advise Landowners to remove personal items from the floodplain prior to the releases. More information is available at the Trinity River Restoration Program website: www.trrp.net.
